New functionality was added to the file cover sheet to display a checkbox indicating if a patient is private, with the checkbox remaining blank for non-private patients.

Release Notes

Release Version : 8.0.2410.22

Hospital : 1 change(s)

Development : 1 change(s)

Hospital: Print - Add more selection functionality to case reports

Dev Ref: 35885

Support Ref #: 765122

Development to expand selection options and grouping on hospital case reports has been completed to include doctor, medical aid, case type, and procedure. Patient status, case status, and case type selection are now available on most reports. These selections are saved with the report profile, and if a user cannot edit reports, the default selections are applied.
