## Release Notes

Release Version : 8.0.2411.05

---

### General : 3 change(s)

#### Remove Discontinued : 2 change(s)

##### Desktop application: Block old Desktop version from running on updated database

*Dev Ref: 36321*

Development has been made to block the application from running older module versions. The system will now prevent users from running an outdated version once the dataset has been updated by a newer version.

##### Desktop: Help tab - Information to change

*Dev Ref: 31965*

Removed non-functional links in the Help tab.

#### Request : 1 change(s)

##### MedDebs: EDI Switch functionality added as an exclusion option for Medprax on scheme settings

*Dev Ref: 31249*

*Support Ref #: 597554*

A request was completed to add EDI switch functionality to the Medical Aid Option exclusion list, facilitating its exclusion from the medical aid enablement process. For more information, please visit our learning centre at: <https://learning.goodx.co.za/mod/page/view.php?id=6152> How to Enable/Disable EDI Switch on Medprax
