

Release Notes

Release Version : 8.0.2501.23

General : 22 change(s)

Bug Fix : 16 change(s)

MedDebs: Admittance - Doctor allocation logs displays error

Dev Ref: 36702

Support Ref #: 784948

Addressed the SQL error that would display when viewing the Doctor Change Log.

MedDebs: Admittance - Debtor input Follow Ups F2 hotkey not functioning

Dev Ref: 20529

Addressed the issue on the debtor input Follow Ups screen where the `Add (F2)` hotkey did not function when used from the keyboard to add a follow-up appointment.

MedDebs: Admittance - Employer details not automatically added on IOD debtors

Dev Ref: 24240

Addressed an issue preventing the Employer field from auto-completing on patient input when saving a new Injury on Duty debtor file.

MedDebs: Admittance - Debtor Transaction Group - Shortcut keys not responding & groups cannot be searched

Dev Ref: 24015

Addressed the issue where users were unable to search a transaction group on a debtor as well as perform a new search using the shortcut keyboard F6 or Ctrl-F command keys.

MedDebs: Transactions - F6 Key not responding for date change on Debtor Credit Notes feature

Dev Ref: 23148

Addressed the issue where the function key F6 did not respond when trying to change the date while creating a debtor credit note.

MedDebs: Multi Invoice - Alt+Z hotkey shortcut does not set invoice line item to zero

Dev Ref: 20658

Addressed the issue where the Alt + Z keyboard shortcut did not set an invoice line item amount to zero as intended.

Diary: Debtor List - F5 shortcut key not working when searching for a postal code

Dev Ref: 21922

Addressed the issue where the shortcut keys F5, F6, and F7 did not work as expected on the postal codes screen on debtor input on the Diary.

Financial Reports: Cashbook - Error pop-up when trying to save Mail All Views file

Dev Ref: 23185

Addressed the issue where an error would display on the Cashbook reports when trying to save the `Mail all views` report before it is sent via email.

Release Notes

Release Version : 8.0.2501.23

General : 22 change(s)

Bug Fix : 16 change(s)

MedDebs: List - Incorrect wording on Pricelists warning message when procedure code price is set to R0.00

Dev Ref: 18824

Addressed the issue where Incorrect wording would display on the warning message when a procedure code price is set to R0.00.

MedDebs: Invoicing - Standardize wording of hotkey shortcuts on stock list screens

Dev Ref: 18630

Addressed wording issues of some hotkey shortcuts on the stock list screens when invoicing.

MedDebs: Admittance - User should not be able to select a future date of injury on IOD debtors

Dev Ref: 20455

Addressed the issue where users could set an injury on duty (IOD) date to a future date.

MedDebs: Admittance - Unable to switch off Permission to receive email and SMSs configuration

Dev Ref: 36936

Support Ref #: 791470

Addressed the issue where the `Permission to receive email and SMS` checkbox could not be saved as unchecked, resulting in debtors and/or patients still receiving unnecessary communication.

GXManage: Pricetool - Unable to delete a tariff code on Maintain Tariff Codes List screen

Dev Ref: 22930

Addressed the issue where a tariff code was not removed when deleted from the Maintain Tariff Code List. Tariff codes can now be marked as `Deleted Code` and will no longer be billable.

MedDebs: Admittance - Print button does not work when a transaction is viewed

Dev Ref: 20531

Addressed the issue where the print button on transactions did not respond on the account query screen.

MedDebs: Admittance Member Input - Multi-lang issue when printing debtor/ patient labels.

Dev Ref: 24048

Addressed the issue where the debtor/ patient labels still printed in English even though the system was set to Afrikaans.

Release Notes

Release Version : 8.0.2501.23

General : 22 change(s)

Bug Fix : 16 change(s)

MedDebs: Admittance - Fixed data changes displays code and not MA/Option names

Dev Ref: 36908

Support Ref #: 790521

Addressed the issue where the `Debtor: Fixed data changes log` displayed the medical code and not the name of the option or scheme.

Development : 2 change(s)

Desktop: Database - PG12 not compatible with newest version warning message

Dev Ref: 37350

Development to add a PG16 upgrade warning message on the system has been added. Please contact your designated FCL for support.

Creditors: Stock Invoices - Removal of Notebook Entry option on GRV print parameters

Dev Ref: 18862

Development to hide parameter options not relevant to creditor GRV has been completed.

Remove Discontinued : 3 change(s)

Creditors: Accounts - Discontinue the Delete functionality

Dev Ref: 20462

Removed the delete functionality from the creditors account enquiry.

GXManage: Global Lists - Discontinue the Delete function from the Stock Schema screen

Dev Ref: 20466

Removed the delete function from the Stock scheme screen.

MedDebs: Admittance - Invalid format box shown next to Employer Notes field on Non-medical debtors

Dev Ref: 24552

Removed the unnecessary label (format: dd-mm-yyyy) from the non-medical debtor input.

Request : 1 change(s)

Stock: Corrections - Undo capture of single item on Stock Take capturing

Dev Ref: 34056

Support Ref #: 657809

Development to enable users to undo the capture of an item during a stock take has been completed. For more information, please visit our learning centre:

<https://learning.goodx.co.za/mod/page/view.php?id=6169> How to Undo the Capture of a Single Stock Item

Release Notes

Release Version : 8.0.2501.23

GxPrices : 4 change(s)

Bug Fix : 2 change(s)

GxManage: Pricelist Management - Pricelists (managed by GoodX) name changes not updating at client sites

Dev Ref: 37533

Addressed an issue where pricelist name changes managed by GoodX were not updating. Additionally, pricelist descriptions will now only be altered by GoodX if they have not already been modified locally.

GXPrices Tools: Unit-price as a floating point on Unit-price screens

Dev Ref: 37524

Support Ref #: 807117

Development has been completed to enhance the screens for adding tariff codes to price lists, allowing fractional values for units to be captured (e.g., 5.26). Previously, only whole numbers were permitted.

Development : 2 change(s)

GXManage: Pricelist Management - Add contract diff report to Desktop

Dev Ref: 37556

Development has been completed to add a report comparing medical aid contract linking between the current and previous year. This report is accessible in the Global Pricelist Reports menu on the Pricelist Management screen within the Management module.

GXManage: Pricelist Management – Added ability to assign unit price types with an ID greater than 30

Dev Ref: 37332

Local unit type identifiers are now assigned by the system. Their value will be 1000 or higher. This is to prevent them from over-lapping with unit-types issued by GoodX.

Release Notes

Release Version : 8.0.2501.23

Hospital : 4 change(s)

Bug Fix : 2 change(s)

Hospital: MedDebs - Delete button for CPT codes produces an error on Cases

Dev Ref: 20366

Addressed an issue on the CPT code screen in cases to ensure the delete functionality is only available when one or more codes are selected.

Hospital: Cases - Error occurs when updating patient info directly after updating medical info

Dev Ref: 20756

Addressed an issue where an error occurred when updating patient information on a case immediately after updating medical information.

New Feature : 2 change(s)

Hospital: System Options - Added an option to enable Balance Billing for hospitals

Dev Ref: 37657

A request to add a configuration to the system which supports balanced billing for hospital systems has been completed. For more information, please visit our learning centre at:

<https://learning.goodx.co.za/mod/page/view.php?id=6180> Enable Balance Billing for Hospitals (Desktop)

Hospital: Cases - Pre-Admitted case status to be added

Dev Ref: 33913

Support Ref #: 713552

Development has been completed to introduce a new case status called Pre-Admitted, now available on the Cases screen.

For more details, please visit our learning centre: <https://learning.goodx.co.za/mod/page/view.php?id=2815> Hospital Case Status (Desktop)

Release Notes

Release Version : 8.0.2501.23

Reports : 1 change(s)

Remove Discontinued : 1 change(s)

Financial Reports: Management Report - Remove buttons from report parameters on Cost Centre Income Statement

Dev Ref: 21835

Removed unnecessary buttons on the Cost Centre Income Statement report setup.

Release Notes

Release Version : 8.0.2501.23

Stock : 5 change(s)

Bug Fix : 1 change(s)

Stock: Reports - Undo button in Stock Movement: Detail report setup not functioning properly

Dev Ref: 18633

Addressed the issue in the Stock Movement Detail report setup where the `Undo` button on the stock list selection screen deleted all added items instead of only the most recently added item, as intended.

Development : 2 change(s)

GXManage: Updates - Medprax updates stock items as active even though it is set to add as inactive

Dev Ref: 36650

Support Ref #: 782345

Development to address the Medprax update issue where new items were set to active and not inactive using the `Update new items inactive` feature has been completed.

Stock: Invoicing - Request for configuration to always use cost based on Last Purchase Price

Dev Ref: 34587

Support Ref #: 734935

A new toggle `Always use cost based on last purchase price` allows the user to use last purchase price instead of weighted average as cost. For more information, please visit our learning centre at: <http://learning.goodx.co.za/mod/page/view.php?id=5087> System Options: Interfacing

New Feature : 1 change(s)

Stock: Stock Setup - Added Stock Costing History tab to Stock Item Info screen

Dev Ref: 36972

A new feature, Costing History, has been added to the stock item info screen. For more information, please visit our learning centre at:

<https://learning.goodx.co.za/mod/page/view.php?id=6178> Stock Costing History (Desktop)

Request : 1 change(s)

Stock: Corrections - Not able to choose Multiple Warehouses

Dev Ref: 37223

Support Ref #: 800005

Development has been completed to add an option allowing the selection of multiple warehouses for stock take.
